

Excerpt from Journal

17 July 1958

Met with Walter Reynolds on the staff of the Senate Government Operations Committee and explained to him our interest in the proposed negotiated disposal of two 500 KW transmitters. Mr. Reynolds said he would await the normal approach to the Committee by GSA but indicated that presumably he would have to discuss the matter with Senator John L. McClellan (D., Ark.).

Mr. Poland, Chief Counsel, House Government Operations Committee telephoned to ask for additional information which was supplied. Mr. Poland indicated that he would have to take the matter up with Representative Brooks (presumably Jack Brooks, Chairman of the General Government Activities Subcommittee). Advised [] that he should inform GSA STAT that the two committees are expecting this matter to be presented within the next few days.
